

A MUST HAVE TOOL for metal workers,
The ball pein hammer features a
rounded end for pounding metals
and a bevel on the other for regular
hammering applications

Head

Forged from fine-grained special steel
the heads are induction hardened
50-58 HRC for increased durability

Handle

Lightweight yet durable dual injection
moulded fibreglass handle for
controlled and balanced swing

Designed with a 25% wider neck,
handles are covered with a
polypropylene jacket for protection
against overstrikes

TPR grip on handle absorbs shock and
vibration and provides a non-slip grip

Handles securely attached to the
hammer head using a tough epoxy
adhesive ensuring that the head does
not fly away even with rough use

UTILITY

- Bending & shaping metal
- Driving punches & chisel
- Concrete & stone work
- Hand forging
- Setting rivets
- Peen riveted & welded material
- Texturing face of metal

BS 876

For material, hardness
& performance
