

## Duo Bar Clamps

**DBC**

Manufactured from drawn steel with a section of 1-1/4" x 1/4" (32 mm x 6 mm)

Equally spaced holes along the entire length for clamping of a vast range of sizes

Rigid and robust malleable iron head and slide can be easily reversed on the bar allowing both internal as well as external clamping

Spring loaded pin allows the head and slide to be adjusted at any desired position on the bar

Internal clamping is especially useful for holding window or door frames in position or holding partitioning in place during construction etc.

Duo Bar used for internal clamping

### Throat Depth (T)

2.1/8" (55 mm)

### Width of clamp face (W)

1.3/16" (30 mm)

### ORDERING INFORMATION
